

## **Integrated Preschool Program Information**

Thank you for your interest in our preschools. Please read all of the following information carefully, as it describes the requirements of the program.

### **Purpose**

The Fairhaven Public Schools Integrated Preschool Programs are designed to include both 3 and 4 year old children with special educational needs and their typically developing peers. While addressing the individual needs of students receiving special education services, an integrated preschool program emphasizes the development of all children within a developmentally appropriate curriculum.

The District is actively seeking typically developing peer partners to serve as models for the integrated Program. In order to be eligible for one of these opportunities the child must participate in the preschool screening process.

### **Admission Procedure**

Admission for a child with special educational needs is through the special education evaluation process. Anyone who feels that their child may be in need of special education services can receive further information about the early childhood screening and evaluation process by contacting the Fairhaven Public Schools Special Education Office at (508) 979-4000 ext: 117.

Admission for a child as a peer model may occur through a lottery depending on the number of eligible applicants that are received. Peer models must be residing within the Fairhaven school district. Applicants **must be 3 years old prior to September 1, 2023**. Children considered are those who do not currently receive special education services and are not in need of special education services. Applicants (*model students*) are expected to demonstrate AGE APPROPRIATE SKILLS (within 6 months) in the areas of speech and language, cognitive/school readiness skills, fine and gross motor skills, and socialization and behavioral skills - this includes but is not limited to being toilet trained, demonstrating self-control and pro-social behavior. If, through the application and screening process, it is determined that a child is not developmentally on target in any of these areas, it may make the student ineligible. If the child is unable to comply with directives or participate in the screening, the parents or teachers may choose to re-screen the child in 6 months. If the child is then

able to pass the screening instrument, he/she will then be placed on the waiting list and offered the next available spot in the preschool program.

In the event of a lottery, appropriate peer model students who are not selected in the lottery will be placed on a waiting list. In past years, openings have occurred after the lottery selection and into the school year, and we have offered slots to those on our waiting lists.
